BIG DATA, MACHINE LEARNING, AND THEIR REAL WORLD APPLICATIONS

Jonathan Wayne Korn

2021-04-14

Outline

Week 02, 07/05 - 07/11, Day 8

Wednesday **(Pre-Session Readings and Assignments)***:*

- Access the supporting scripts in the following github repo you cloned yesterday @ 08_deep_learning.

Wednesday **(morning session ~ 9:10am to 11:00am)***:*

- *Continue…* Application and Reporting of Deep Learning Algorithms for Supervised Problems using Unstructured Data

    – Image Applications

Wednesday **(afternoon session ~ 1:10pm to 3:00pm)***:*

- Application and Reporting of Distributed Machine Learning and Deep Learning Algorithms for Supervised Problems using Structured and Unstructured Data

    – Discuss the potential of using structured and unstructured data for distributed supervised machine/deep learning systems.

Wednesday **(Post-Session Readings and Assignments)***:*

- Access Assignment #4 documentation @ folder labeled assignment4.
